Adele Ceramic Collection

- FRAME -

Aluminium is an ideal material for outdoor furniture in Australia. It is low maintenance with sleek clean lines. It will not absorb moisture, rot or perish.

Frames are sustainable as they can be recycled. Utilising a superior heavy gauge frame we have added additional channels for extra reinforcing and strength. Stainless steel hardware for the leg attachment makes this collection ideal for all weather use.

'Tiger' brand powder coat finish to produce a uniform coloured surface. Resistant to scuffing and scratching and easy to clean with a damp cloth.

- CERAMIC -

Ceramic is the most durable of all outdoor materials. Highly resistant to scratches stains and heat. Easily maintained as it is a smooth non-porous that is easy to clean by simply wiping with a damp cloth. Making Ceramic one of the most suitable materials for coastal areas.

Aesthetic variety as it is available in various colours- Light Grey, Dark Grey and Travertino. ceramic tables can complement almost any decor style. Heat resistant as ceramic surfaces can withstand extreme high temperatures making it the most suitable surface for hot dishes.

Ceramic surfaces bonded to glass gives added strength whilst providing a floating aesthetic enhancing the square and rectangular tables shape. Solid ceramic for round table tops for colour consistency from any angle.
